-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Specification***

1. The amendment filed March 02, 2005 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the negative draw as now defined does not have support in the specification nor the figures. Applicants argue that one of ordinary skill in the art would recognize that the draw D is a negative draw, since there are three different speeds involved, i.e. the drier's speed, the web speed after or during creeping and the speed of the fabrics. However, there is nothing in the specification that teaches and/or suggests the relative speeds of the different devices, i.e., one of ordinary skill in the art would not recognize from the drawings that the speed of the drier is different than the speed of the transfer fabrics.

Applicant is required to cancel the new matter in the reply to this Office Action.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-9 and 15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. See objection to the specification above.

***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-9 and 15 are rejected under 35 USC §103(a). This rejection is set forth in the prior Office action mailed on April 26, 2004.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Claims 1-3, 9 and 15 are rejected under 35 USC §102(b). This rejection is set forth in the prior Office action mailed on April 26, 2004.

***Response to Arguments***

3. Applicant's arguments with respect to claims 1-9 and 15 have been considered but are moot in view of the new ground(s) of rejection.

4. Applicant's arguments filed on March 02, 2005 have been fully considered but they are not persuasive.

The previous rejection has been maintained since the specification lacks support of the negative draw as it is now claimed and therefore these limitations have not been considered.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure in the art of "Paper Transferring Systems."
